Why Today's Hiring Process is Broken

Resume Reliant

Doesn't measure real skills.

ATS Filtering

Rejects capable candidates.

Costly Interviews

Screening before evaluation wastes time.

Hidden Soft Skills

Teamwork and decision-making are untested.

Students

Lack practical proof of ability.

Traditional hiring evaluates what candidates CLAIM, not what they can DO.

Introducing DayOne

Traditional

Resume → Interview → Guess

AI Coworkers

Simulate realistic team interactions.

Live Coding

Work in an interactive IDE during tasks.

Work Management

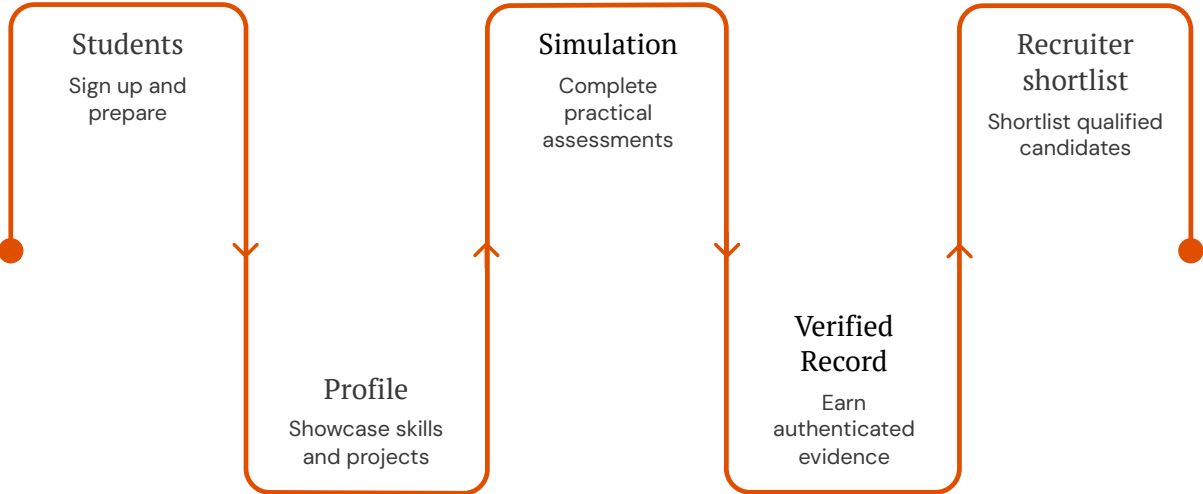

Project tasks, sprints, and collaboration.

Verified Skill Record

Permanent proof of workplace performance.

Target Users & Use Cases

Students

Prove practical skills to employers.

Recruiters & Hiring Managers

Shortlist with verified evidence.

Universities & EdTech

Showcase graduate employability.

Key Features

AI Team Members

Simulated roles for collaborative tasks.

Interactive IDE

Live coding with autosave and tests.

Task Management

Jira-style workflows and sprints.

AI Mentor & Career Roadmaps

Guided learning and personalised paths.

Skill Record Certificate

Verified proof for recruiters.

Technology Stack

1

Frontend

React · TypeScript · Vite ·
Tailwind CSS

1

Auth & Dev

JWT · GitHub · VS Code ·
Postman · Figma

2

Backend

Node.js · Express · TypeScript

2

AI & Deployment

Google Gemini API · Render

3

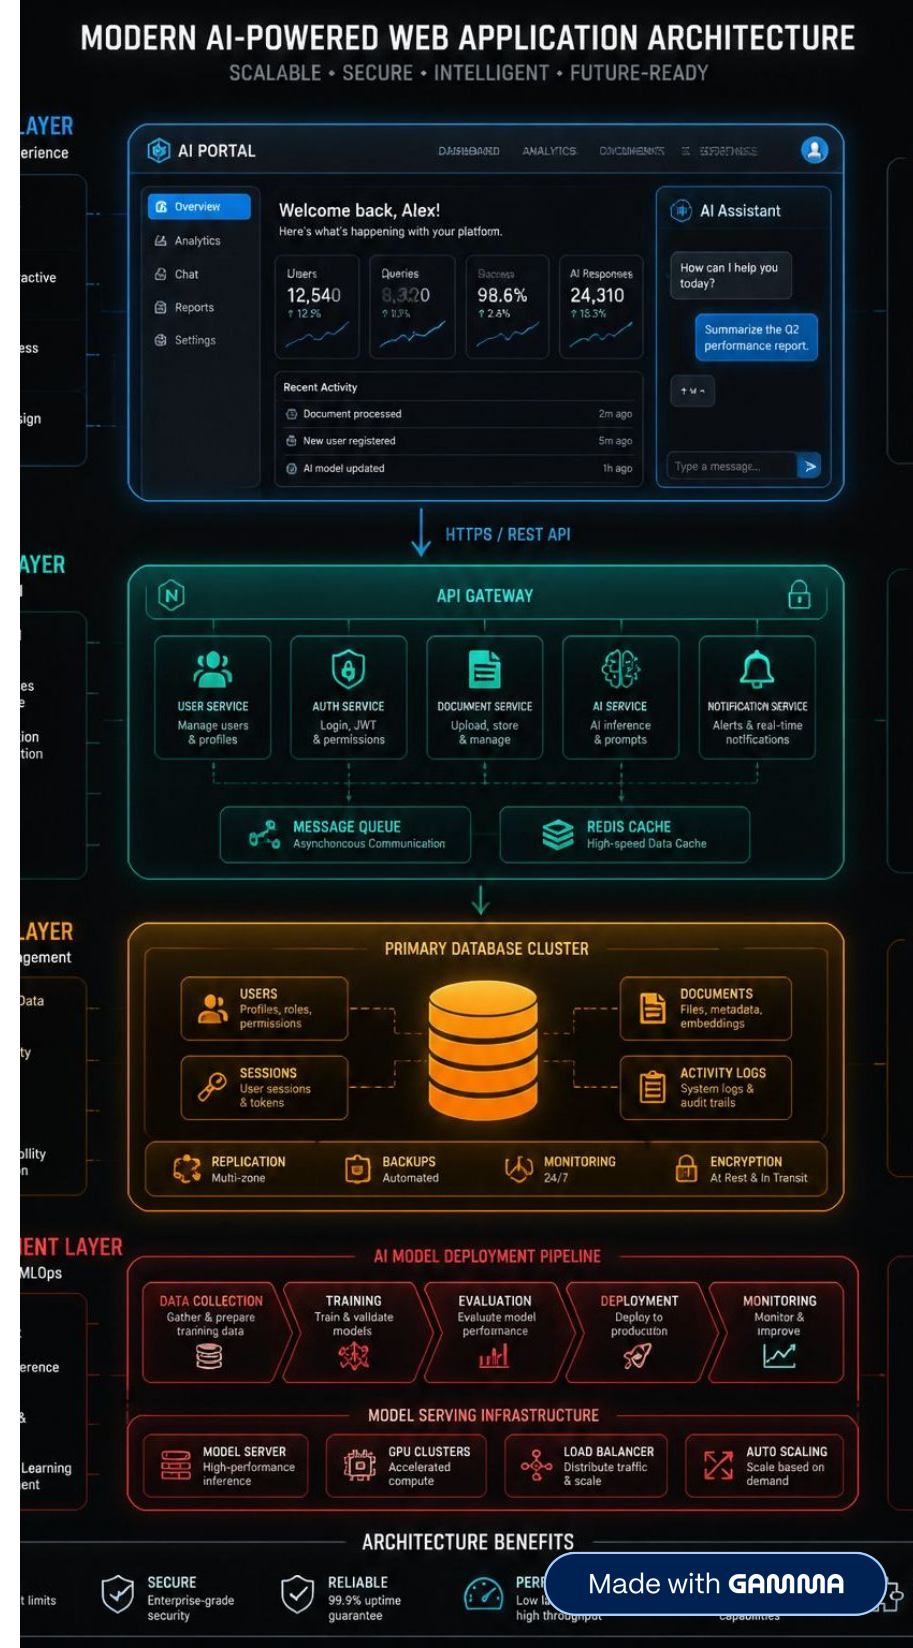

Database

MongoDB Atlas

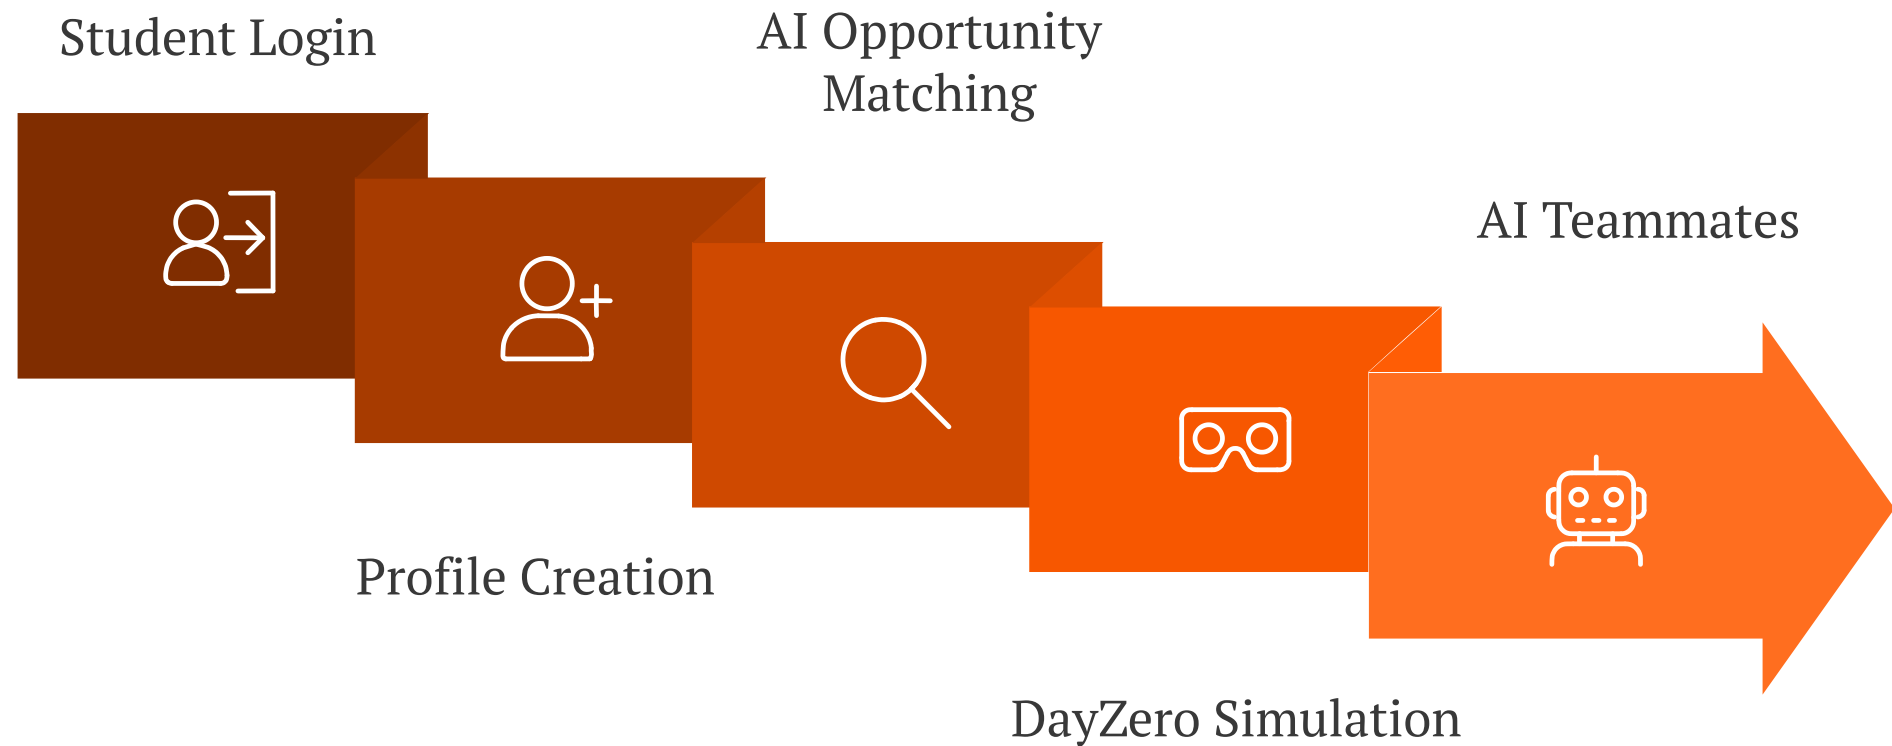

3

Monitoring

Logs & analytics → Recruiter
insights

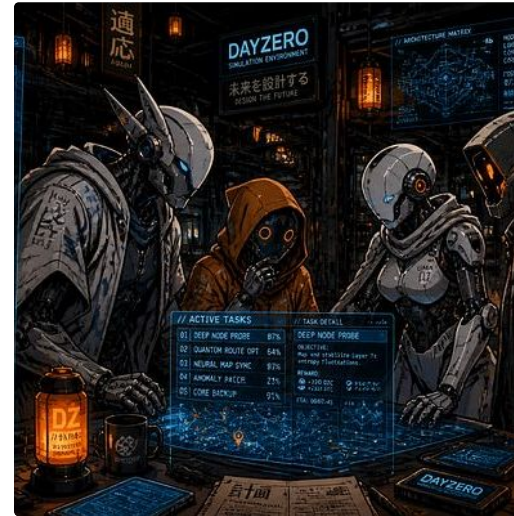

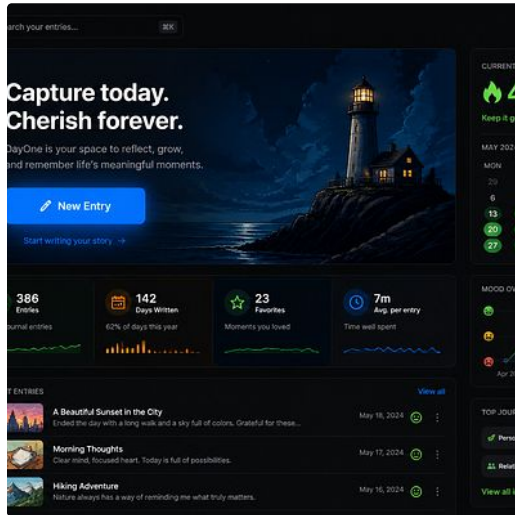

System Architecture / Workflow

Clean, trackable flow powering proof-of-work evaluations for recruiters.

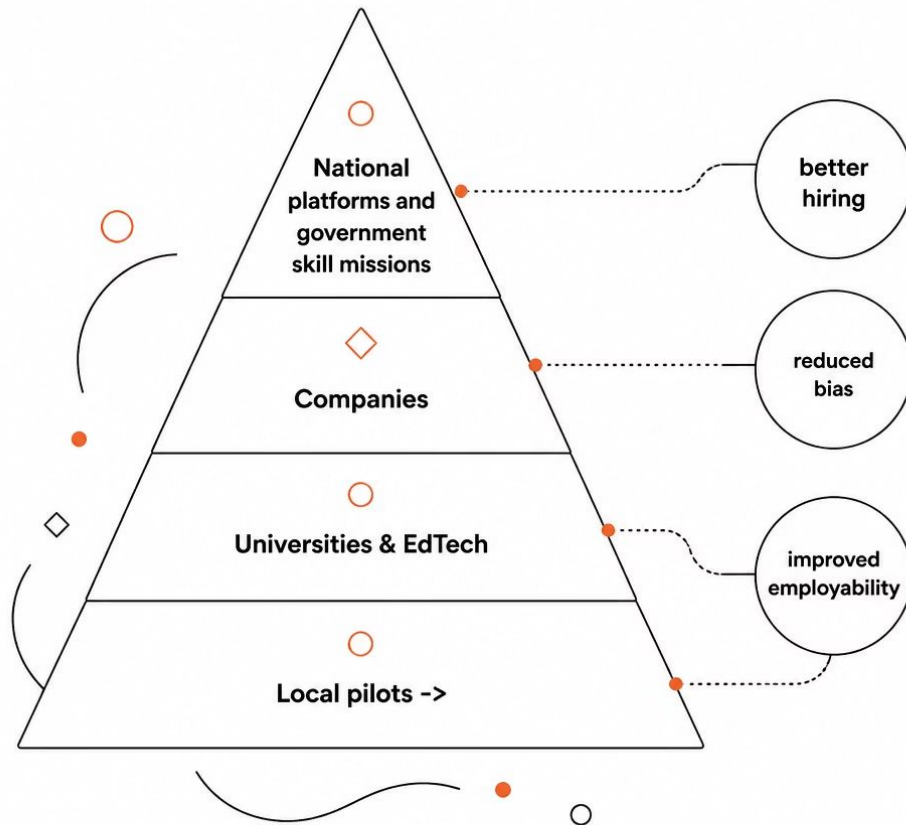

Prototype & Demo

- GitHub Repository
- Live Demo & QR Code
- Demo Video

Innovation, Impact & Scalability

- **Innovation**

Proof-of-work · AI coworkers · Behaviour analysis

- **Impact**

Better hires · Faster screening · Reduced bias

- **Scalability**

Universities · Companies · National hiring platforms

Future Scope & Conclusion

Sandbox

Real Docker-based coding environments.

AI Voice Interviews

Speech-enabled behavioural assessment.

Verified Certificates

Blockchain-backed verification options.

Global Reach

Multilingual AI teammates · International hiring.

Conclusion

DayOne transforms hiring from "what candidates say" to "what candidates can actually accomplish."

"The future of hiring is proof of work
—not proof on paper."
